## DIARY 2024

March 4th - Committee Meeting

March 11th - Members' Meeting

March 21st - Bunnings Easter Family Night

March 30th & 31st - Easter Shop

March 31st - Annual Fees due - \$70

April 1st - Committee Meeting

April 7th - Bunnings Sausage Sizzle

April 8th - Members' Meeting

May 6th - Committee Meeting

May 13th - Members' Meeting

May 26th - Bunnings Sausage sizzle

June 3rd - Committee Meeting

## WOODIES WORKSHOP SESSIONS

### WOODTURNING: Regular Sessions

Monday 9 am to 12 noon	- Hartley Tobin:	5997 6328
	Neil Lenne:	5678 5736
	Neil Bateman:	5672 3229
Monday 1pm to 4pm	John DiStefano:	0481 480 812
Monday 5 pm to 8 pm	- Michael Bladen:	0428 270 850
Wednesday 1pm to 4pm	- Lionel Wood:	0409 695 950
Friday 9 am to 12 noon	- Hartley Tobin:	5997 6328
	Neil Lenne:	5678 5736
	Neil Bateman:	5672 3229

### SEGMENTED TURNING: Regular Sessions

Friday 9am to 12 noon	- Grant Crocker	0418 121 592
-----------------------	-----------------	--------------

### WOODTURNING: On-demand Sessions

Friday 1pm to 4pm	Hartley Tobin:	5997 6328
-------------------	----------------	-----------

### TOY GROUP: Regular Sessions

Tuesday 9am to 4pm	- Peter Myers	0413 122 103
--------------------	---------------	--------------

### PYROGRAPHY: Regular Sessions

Friday 1pm to 4 pm	- Michael Bladen:	0428 270 850
--------------------	-------------------	--------------

### SCROLL SAWING: Regular Sessions

Wednesday 9 m to 12 noon	- Lionel Wood:	0490 695 950
--------------------------	----------------	--------------

### BANDSAW BOX MAKING: On-demand Sessions

Monday 1pm to 4 pm	- Marion Kerry:	0409 010 843
--------------------	-----------------	--------------

### JOINERY: Regular Sessions

Thursday 9am to 12 noon	- Syd Gordon	0434 614 573
-------------------------	--------------	--------------

### JOINERY: On-demand Sessions

Thursday 1pm to 4pm	- Syd Gordon	0434 614 573
Wednesday 1pm to 4pm	- Syd Gordon	0434 614 573

### CARVING: Regular Sessions

Friday 9am to 12 noon	- Harry Smith:	5674 8078
	Lionel Wood:	0490 695 950

## PRESIDENT'S MESSAGE

*Hi everyone and welcome to the February newsletter. We have had quite a few new members join the club and I would like to welcome them. We had a great first Members Meeting, there were quite a few pieces for show and tell and it was good to see everyone, including new members. We had a very interesting speaker. Michelle from Wellways spoke about mental health and provided valuable information on services available to*

*anyone. After the meeting people commented that they got a lot out of it and some spoke to Michelle. I would like to thank Lex for organising Michelle to speak at the club. We have quite a few members on the sick list and we wish them a speedy recovery. I would like to thank Alan Hurst for all of the hard work he has done on the grant applications, as there is a lot of paperwork in writing one up and at the end of the day, everyone reaps the rewards. The club was donated a bandsaw and drill press which Alan, Syd, Frank, Lex and Peter picked up last week. Thank you gentlemen. Last week we had the site prepared for the container. The concreting was to be done this week and then we can get the container delivered which will give us a lot more storage space. I would like to remind everyone to CLEAN UP TOTALLY AFTER USING THE MACHINES SO THEY ARE CLEAN FOR THE NEXT PERSON. Thanks to all those who are emptying the vacs, but please take the time to clean the filters as well. Even if they are empty, they won't work properly if the filters are still clogged. **Cont. Page 2***

**Cont.** Can I ask members to please dust themselves off before going into the meeting room? There has been a noticeable amount of dust and shavings on the floor and someone then has to clean it up.

Once the container has been dropped off we will be having a working bee to paint it, and fit it out.

A reminder that there is a Bunnings BBQ in April and we will need volunteers so if you can spare some time in the morning or afternoon, it would be greatly appreciated the sheet is on the notice board. We are having a weekend Easter shop this year, so start to get your things ready for sale.

I would like to remind everyone that if you want to use the bandsaw, thicknesser, jointer, drum sander, router, drop saw or table saw, you should do an official training session on the machines beforehand. If you wish to do this, you need to book a time with Syd Gordon. If you haven't done the training and been signed off, you may only use these machines under the direct supervision of a workshop Supervisor.

Enough said! Cheers, Neil.

## CURRENT NEWS

**Easter Shop** - Because of the success of the Christmas Shop, the Committee has decided to run an Easter Shop on Saturday 30th and Sunday 31st March. It will be held at the Club, under the same conditions at the Christmas Shop. More details will be provided closer to the event.

**Shipping container** - We have accepted a Grant of \$1000 by Bendigo Bank to contribute to the installation of a 40 ft shipping container. This will be used for storage of wood and other items that are cluttering our workshops. We have written approval from BCAL and groundworks and foundation compacting and concrete pads are being installed. The container will be delivered shortly afterwards and then working bees and support will be required for the fitout and transfer of materials/shelving and equipment.

**New Workshop proposal** - The planning to apply for a Men's Shed grant later in the year for a new workshop is well underway. We have both BCAL and BC Shire permission and an on-site visit by a building surveyor shortly. Plans are done and an engineer will be adapting these to meet regulations. It will be attached to the south side of the current machinery shed and will allow for more space for major equipment and benches to better cater especially for toy, carving, joinery & segmented turning groups.

**Bunnings Sausage Sizzles** - A big thank you to Peter and Alex for continuing the organisation and running of our Bunnings events. The last event in January cleared over \$1200. The next two sausage sizzle

## CURRENT NEWS cont.

rosters are up on the noticeboard. They are for April 7th and May 26th. It would be nice to see some new members involved with these, as it is often the same faces involved. The profits (almost \$6000 per year) from these events go a long way to keeping fees down and the Club well resourced.

**Bunnings Easter Family Night** - This will be on Thursday March 21st from 6pm to 8pm. Once again some helpers will be required. We will be able to display, sell toys, take orders and talk to potential members. Bunnings had over 420 children and adults at their Christmas Family Night, so this will hopefully be a worthwhile event for the Woodies.

**Members' Meetings** - Thanks to Lex for organising Michelle Debenham and a colleague from WELLWAYS at short notice after our booked speaker from Festool had to cancel. We will get him at a later time.

**First Aid Course grant application** - An application has been submitted to run a Level 1 First Aid Course for 20 members. If successful, the course will be run by BCAL over two days, each day for 10 participants. It will be a full day with lunch included and there will be no cost for participants. The course will cover first aid specifically related to our Woodies environment, CPR and defibrillator training. Never guaranteed success with grant applications these days, but I'm hopeful. More details when they come to hand.

**Donation of bandsaw and pedestal drill** - The Woodies would like to thank Neil Duncan from Cape Paterson for his generous donation of a Hafco bandsaw and Carbatec pedestal drill. These machines are only 6 years old, but haven't been used for 3 years as Neil's interests and personal circumstances changed. The Committee will determine how we will use these machines, once the container is sited.

**Having an on-air presence with South Coast FM** - The new manager of South Coast FM Tony John, has offered us the opportunity to have a regular time on-air with one of their presenters to talk about what is happening at the Woodies. This is ideal for promoting various aspects of the Club as well as upcoming special events like our Easter shop. It may be once a fortnight or perhaps less frequently and we would like to know if any Woodies member is interested in managing this.

I can't even remember  
what I did all day,  
but at least it's done!

## MEMBER PROFILE

### Neil Croll

I was brought up in the Melbourne suburb of Hawthorn; my father was a geologist and my mother a teacher. After leaving school I worked as a motor mechanic for several years before taking several jobs as a technician, mainly in scientific research projects. That was an exciting and challenging life, but because of the uncertainties of research grant funding, I needed a more secure income so I decided to retrain as a mental health nurse.

Until then my hobbies had been motor racing (rallies, hill climbs and scrutineering), canoeing and bush walking, but nursing shifts made these difficult and I gradually drifted into more home-based activities. I moved around Melbourne a bit, then out to Wallan, Pretty Sally and Darraweit Guim, from where I commuted to Bendigo for work. The travelling was costly and tiring, but it was meeting my now-wife Katrina that finally impelled me to move to Bendigo.

Bendigo is a good place to live if you don't mind being that far from the sea, which we both did, so we planned to move somewhere near the sea. It seemed that the time would never be right but then I was offered a two-year contract in Hobart, Tasmania, so we started packing. Houses were scarce on the ground at that time and we ended up near the sea but in a house that we didn't much like, so a year later we were on the move, from Midway Point to Kingston. There we had water views, and could see the Sydney to Hobart boats entering the Derwent.

I had been sailing a Hartley TS16 trailer-sailer on Lake Eppalock before we moved to Tasmania; now we bought a traditionally-designed canoe-sterned 8.2 M (27 ft) boat and started sailing the D'Entrecasteaux Channel. I was a member of a yacht club, a cruising club and a traditional boat organisation and finding myself increasingly maintaining, repairing and restoring wooden boats. I was also exhibiting our own boat at the Wooden Boat Festivals. After my contract was over I worked in a couple of contract positions and as a freelance editor of research reports. This gave me time to join the crew of a square-rigged sailing boat, mainly involving myself in maintenance and repairs plus a bit of sailing. My role in that crew was analogous to the old Navy rank of carpenter's mate.

Up to that time I hadn't considered doing woodworking because whatever I had tried to make with wood had usually ended up as kindling, but now I began to take an interest. Why? I had always known my family's background but with online family history sources becoming widely available I decided to systematically research my own family. I found that I am descended from quite a long line of carpenters, joiners and wood carvers who worked in various places in north-east Scotland and Australia. My reaction was 'perhaps I should try that'.

Vague thought became slow action when I found an advertisement for an old lathe at a price that I thought pretty reasonable. But before I could make any more kindling or sawdust a couple of life changes intervened. For some years we had been aware that our time in Tasmania was limited, and we had been planning to move back to Victoria. We made several trips to Paynesville and had just started the process when Covid hit and the whole thing had to be put on hold. Even when restrictions eased a little we were unable to travel to look at properties, so eventually we bought our next house online. Travelling from Kingston to Paynesville was horrendous. The ferry ran into a full gale, green water burst over our cabin window, the ceilings leaked buckets and even many of the crew were seasick. When we finally landed we were unable to stop except for fuel, so we were extremely relieved to reach Paynesville.

In Paynesville I was able to start looking at information about how to do wood turning and try for myself. So I bought a beginner's set of lathe tools, looked up some You Tube videos and found that they made it look far easier than it really is. Clearly I needed help.

Paynesville is a very pretty place, but Covid had knocked the whole area around and it wasn't the same place we had been visiting. After a couple of years we decided to look around again, this time closer to Melbourne. Turning again to the net we found an interesting looking house in Wonthaggi and finally decided to buy it. We moved here last August and since then we've been amazed at how friendly and welcoming it is. Not the least of its attractions are the Wonthaggi Woodies and Wonthaggi Genealogy Inc., but the library, the food, the nearby beaches, the State Coal Mine and the many little towns in the area are all helping us realise that we've found our place at last.

My lathe unpacked again, it was time to actually start using it, but I definitely needed some help and structure. I found out about the Woodies and thought it was well above my level, but meeting people at the sale was encouraging enough to make me join, a decision I already value highly.

# SAFETY FIRST

IS OUR RESPONSIBILITY  
EACH AND EVERY  
ONE OF US

It was brought to my attention that a new member doing an Induction session with Hartley, asked about evacuation procedures. Below is an extract from the [New Members Booklet](#), that each new member gets once Membership is approved.

**ALL WOODIES MEMBERS PLEASE HAVE A READ THROUGH THIS TO REFRESH YOUR UNDERSTANDING OF THE PROCEDURES. If there is an incident or emergency that occurs at BCAL, U3A or the radio station that may affect us, we will be notified by one of their staff and the procedures below will be followed.**

## Emergency Procedures

### What are emergencies?

The club has considered the following emergencies as foreseeable and practically possible, and put procedures in place to deal with them:

- Non-medical Evacuation Emergencies (Fire, Flood, Chemical, major electrical)
  - o All members should make themselves aware of where fire extinguishers are located.
- Medical Emergencies (Heart attack, stroke, major accident, etc.)
  - o A defibrillator is located in the meeting room and members will have the opportunity to be trained in its use as well as broader first aid procedures from time to time.
- Medical evacuation Emergencies
  - o See below.
- Minor Accidents & Incidents
  - o First Aid procedures
- Other Emergencies (personal attack, threats, burglaries, etc.)
- All accidents (minor and major) must be recorded in the incident report book in the meeting room.**

### Emergency Preparedness

- Evacuations:** Where an evacuation is considered necessary, the supervisor in charge of the session will assume command of the members and visitors present, and must ensure all are evacuated to the emergency assembly area, which is at the extreme end of the car park to the North-East of the Woodcrafters buildings (White Road end). This is a reason why members must sign in when at the Club. That supervisor will also ensure that the appropriate emergency services are notified by calling 000.
- Medical Emergencies:** The session supervisor (or another

member with First Aid training) will immediately call 000 for an ambulance and take whatever other appropriate action is required.

- First Aid Incidents:** First Aid Kits are available in the workshops and the meeting room. All members should make themselves aware of the locations. Should these need to be used *in any way*, details must be provided in the report book kept with the first aid kit. The OH&S Officer will keep the kits fully stocked.

### Emergency reporting

Following any emergency situation, a written report must be provided to the OH&S officer by Supervisors and/or witnesses for record keeping and any potential required follow-up, insurance, etc.

### Working Alone

**Club policy strictly states that no person is to work alone. At least two other Club members must be present in the workshop or vicinity of work being done by any member.**

**PLEASE NOTE** that non-members and visitors are not allowed to use Club workshop machines or equipment for safety, and as a requirement of our insurance. The exception is for a display or demonstration undertaken with the express permission of the Committee.

## BEWARE! CONFUSING SIGNS

# SHOW & TELL

There were a good number of items presented for Show and Tell this month, but we could do with more. Items can be completed or 'under construction' as it's good to see how things progress as they are being created.

**BELOW** - A 40cm natural bowl made from a Huon Pine burl and found on a recent trip to Tassie by Alan Hurst.

The large segmented vase (approx. 70cm) was made by John DiStefano from Tas. Oak, Redgum and other assorted timbers.

**AT RIGHT** - A sound box still being carved by Tina Kalivas, from a Redgum fence post. Tap each section at the top with wood or metal and listen for the different tones.

A resin filled scroll-sawn dolphin scene with thermometer on a resin filled base. All made from Huon. Below that is a table lamp also from Huon with natural bark inclusion. Both made by Alan Hurst.

# SHOW & TELL

**BELOW** - This cute little business card holder is another effort by Gordon Garbutt who's still experimenting using his laser cutting/engraving machine to create decorative options including names.

The segmented wine bottle holder was made by Steve Edge using various timbers.

The rolling pin was made by Hartley Tobin, pictured with a piece of the wood used, ready to make another one.

**AT RIGHT** - The tall segmented lamp stand is a work in progress (hence still on lathe chuck) being created by Steve Edge.

The 3D cutting board has been beautifully done by Lex Van Saane, with more on the way, I'm told.

The natural edge bowl is also still a chuck-mounted work in progress. It's a piece of spalted Peppercorn being made by Neil Lenne.

# WOODIES @ WORK

Bunnings sausage sizzles are the major regular fundraiser for our Club and support all Woodies members. The pics below are of Gordon Garbutt, Malcolm Phillips, Alex Myers, Fred Demenech, Neil Lenne and Alan Hurst, who were some of the team at the event on 27th January which netted us over \$1,200 profit. Also helping was Syd Gordon and the whole thing is managed very efficiently every time by the photographer - Peter Myers.

However, it seems to be mostly the same people who volunteer for these events time and time again. Peter would like more members to put their hands up and commit to be involved with these events that are helping keep our membership fees so low. It's not onerous and is in fact fun.

There are rosters on the meeting room noticeboard for the next two events .... and there's still spaces. So if you haven't done it before - now's your opportunity. It's only one morning **or** afternoon commitment!!

# JOKE OF THE MONTH

*This month's "funny" is compliments of Hartley Tobin -*

Miss Beatrice, the church organist, was in her eighties and had never been married. She was admired for her sweetness and kindness to all.

One afternoon the pastor came to call on her and she showed him into her quaint sitting room.

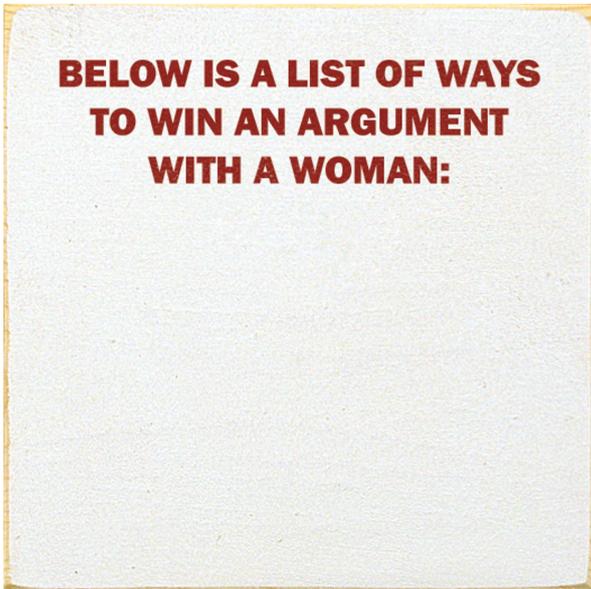

She invited him to have a seat while she prepared tea. As he sat facing her old Hammond organ, the young minister noticed a cut glass bowl sitting on top of it.

The bowl was filled with water, and in the water floated of all things, a condom!

When she returned with tea and scones, they began to chat. The pastor tried to stifle his curiosity about the bowl of water and its strange floater, but soon it got the better of him and he could no longer resist.

Pointing to the bowl, he said, 'Miss Beatrice, I wonder if you would tell me about this'?

'Oh, yes,' she replied, 'Isn't it wonderful? I was walking through the park a few months ago and I found this little packet on the ground. The directions said to place it on the organ, keep it wet and that it would prevent the spread of disease. And do you know, I haven't had a cold or the flu all winter'.

## WOODIES @ WORK

The scroll-saw group is just a few at the moment as long-time member, Michael Barnes, is still in hospital. However, the latest news is that he is on the improve, which is great. **Below** are a couple of works in progress. Firstly, a bandsaw box being made by Lionel Wood for one of his grand children. It is in the shape of the letter "W" and is made from Cypress Pine. Below that is the beginning of a kids puzzle of a family of Koalas being created by Syd Gordon. The timber is Celery Top Pine, approximately 150mm x 200mm x 25mm. **At right** is how the project will look when completed.

## WOODIES @ WORK

## CAN YOU EXPLAIN THIS??

When the old farmer died, his three sons opened up the will and it read:

'My eldest son should get  $1/2$  (half) of the total horses;'

'My middle son should be given  $1/3$  (one-third) of the total horses;'

'My youngest son should be given  $1/9$  (one-ninth) of the total horses.'

As it's impossible to divide 17 into half or 17 by 3 or 17 by 9, the three sons started to fight with each other.

So, they agreed to go to a farmer friend who they considered to be quite smart, to see if he could work it out for them.

The farmer friend read the will patiently, and after giving due thought, brought one of his own horses over and added it to the 17.

That increased the total to 18 horses.

Now, he divided the horses according to their father's will.

Half of 18 = 9. So he gave the eldest son 9 horses.

$1/3$ rd of 18 = 6. So he gave the middle son 6 horses.

$1/9$ th of 18 = 2. So he gave the youngest son 2 horses.

Now add up how many horses they have:

Eldest son 9

Middle son 6

Youngest son 2

TOTAL = 17

This leaves one horse over, so the farmer friend took his own horse back to his farm.....

## SOME INTERESTING IDEAS

**Top:** Using the sole of a sneaker to clean sanding discs and belts saves the cost of buying the commercial version. Just slowly press the rubber sole of the old sneaker along the sandpaper as it's running at normal speed..

**Bottom:** Put good quality duct tape (not masking or plastic tape) on the back of some sandpaper and cut it into custom-sized strips for sanding in tight spots.

## SO YOU RECKON YOU'RE GETTING OLD?

- ◆ The older I get, the earlier it gets late.
- ◆ You know you're old when people call at 8 pm and ask, "Did I wake you?"
- ◆ Women rarely admit their age; men rarely act it.
- ◆ I like older women because they're used to life's disappointments, so they're ready for me.
- ◆ I've reached the age where looking in the mirror is like checking the news. I know there'll be some new developments I won't like.

## WHAT TOOL IS THIS?

### Last Month's Mystery Tool -

Signed "ZETTLER IN SCHWE-RIN" Ornate Coach Maker's Plow Plane - EXCELSIOR 109700. Very intricate and only about 6 inches long.

### This Month's Mystery Tool

## GREAT WEBSITES AND LINKS TO EXPLORE

### The US Government is About to Change Table Saws FOREVER!

If you have or are thinking about buying a table saw, have a look at this video. It's been in the wind for a while in the USA, but is now a reality and will definitely affect other countries including Australia. It requires all new table saws to incorporate SawStop technology or similar. It is certainly going to increase costs, but what price safety?. Have a look at this video - it's worthwhile viewing for all woodcrafters.

[https://www.youtube.com/watch?v=kb6LRfGhr\\_g](https://www.youtube.com/watch?v=kb6LRfGhr_g)

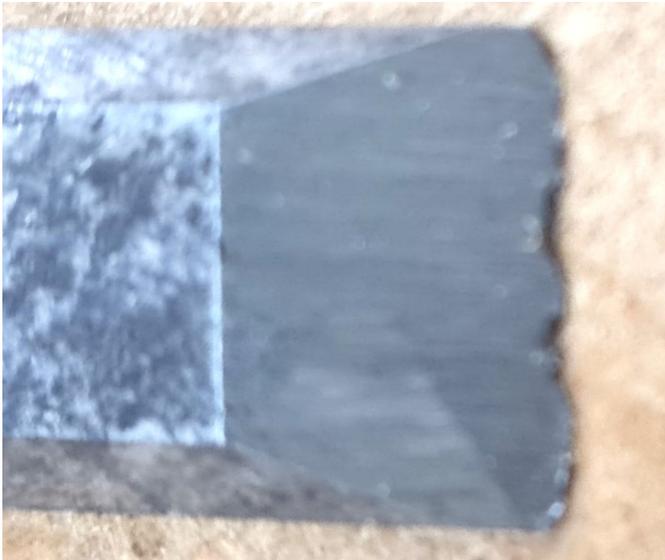

### 40 Amazing tricks that will take you to another level of work – tips and tricks

<https://www.youtube.com/watch?v=yV3UCpy7wc8>

## USE THINGS PROPERLY PLEASE

This chisel has been abused by someone other than the joinery group. It looks like it has hit nails or something similar. I had sharpened this chisel last week! Bottom pic. is how it should look. If anybody wishes to use our bench chisels PLEASE USE THEM PROPERLY. If you damage one let somebody know, don't just put it back. **Syd Gordon**

### \*\*\*URGENT REQUEST\*\*\*

Please send any relevant articles, photos of interest or your latest project, items to buy or sell, woodworking tips, tricks and jigs, or just any general suggestions for the Newsletter to -

**[woodiesnews@gmail.com](mailto:woodiesnews@gmail.com)**

## BIRTHDAYS FOR FEBRUARY

# Happy Birthday

**A very happy birthday to the following Members –**

**Jannice Aucote**

**Peter Fussell**

**Dom Iervasi**

**Giulio Marcolongo**

**Patrick Mitchell**

**Frank Van Pelt**

**There are still a few birthdays not on our records. If we've missed you, please let Alan Hurst know or email -[woodiesnews@gmail.com](mailto:woodiesnews@gmail.com)**

## SAVINGS ON EXPENDABLES

**NEW STOCK HAS NOW ARRIVED IN BULK SO PRICES ARE MINIMISED:** Shellawax, EEE, SuperGlue and sandpaper. All items are on-sold at cost price. We also have earmuffs, safety glasses and Covid-safe masks if you'd like to wear one. If you are interested in purchasing any of these items, see your session supervisor for prices and availability. ***If you have any thoughts about other items the Club could purchase in bulk for resale, speak to a Supervisor or to purchasing officer - Neil Bateman.***

## NEW MEMBERS

**Welcome to new members in 2024 -**

**Morgan O'Neill**

**Neil Croll**

**Adrian Falvey**

**Grace Couchman**

**Paul Berger**

**We are now up to 104 members in total, with a couple more potential members interested.**

***Current members, please introduce yourselves and make all our newer members welcome at the Woodies.***

## CONTRIBUTIONS TO NEWSLETTER SEGMENTS?

If you have any funny stories, articles, *Tips, Tricks & Jigs*, favourite gadgets, items to sell or buy, interesting websites, pictures of things you've created or work in progress, send them to - [woodiesnews@gmail.com](mailto:woodiesnews@gmail.com)  
**Articles must be received no later than the 16<sup>th</sup> of the month please**, to be included in the next Newsletter.

## WOODIES CLASSIFIEDS

There are two categories; 'For Sale' if you have any tools or equipment you want to liquidate, and "Wanted" for those of you who are looking for preloved tools or equipment that other members may be willing to part with. There is no cost.

All you need to do to get an advert in, is write a short description (including contact details) of the item that you are selling, or wish to buy and send it to [woodiesnews@gmail.com](mailto:woodiesnews@gmail.com) along with any photographs where appropriate.

**Entries must be received by 16th of the month to be included in the next newsletter. Items will appear in two consecutive newsletters unless sold or otherwise requested.**
